

Village, Goodhart, and Cross Village, all located in Emmet County, MI.

Morphological evidence indicates this individual is Native American, based on the brachialcephalic formation of the occipital region of the skull. The areas of Cross Village, Gathered, and Middle Village are historic Odawa settlements, and the types of unassociated funerary objects are consistent with Odawa burials of the late seventeenth and eighteenth centuries. Consultation evidence presented by the Grand Traverse Bay Band of Chippewa and Ottawa Indians and the Little Traverse Bay Band of Odawa Indians supports the Odawa affiliation for these sites.

Based on the above mentioned information, officials of the Museum of Anthropology have determined that, pursuant to 43 CFR 10.2 (d)(1), the human remains listed above represent the physical remains of one individual of Native American ancestry. Officials of the Museum of Anthropology have determined that, pursuant to 25 U.S.C. 3001 (3)(B), these 510 cultural items are reasonably believed to have been placed with or near individual human remains at the time of death or later as part of the death rite or ceremony and are believed, by a preponderance of the evidence, to have been removed from a specific burial site of a Native American individual. Lastly, officials of the Museum of Anthropology have determined that, pursuant to 25 U.S.C. 3001 (2), there is a relationship of shared group identity which can be reasonably traced between these Native American human remains and associated funerary objects and the Little Traverse Bay Band of Odawa Indians.

This notice has been sent to officials of the Grand Traverse Bay Band of Chippewa and Ottawa Indians and the Little Traverse Bay Band of Odawa Indians. Representatives of any other Indian tribe that believes itself to be culturally affiliated with these human remains and associated funerary objects should contact David Kennedy, Collections Manager, Museum of Anthropology, University of Michigan, Ann Arbor, MI 48901; telephone: (313) 764-0485 before March 26, 1997. Repatriation of the human remains and associated funerary objects to the Little Traverse Bay Band of Odawa Indians

may begin after that date if no additional claimants come forward.

Dated: February 18, 1997.

**SUPPLEMENTARY INFORMATION:** The San Francisco Bay/Sacramento-San Joaquin Delta Estuary (Bay-Delta system) is a critically important part of California's natural environment and economy. In recognition of the serious problems facing the region and the complex resource management decisions that must be made, the state of California and the Federal government are working together to stabilize, protect, restore, and enhance the Bay-Delta system. The State and Federal agencies with management and regulatory responsibilities in the Bay-Delta system

are working together as CALFED to provide policy direction and oversight for the process.

One area of Bay-Delta management includes the establishment of a joint State-Federal process to develop long-term solutions to problems in the Bay-Delta system related to fish and wildlife, water supply reliability, natural disasters, and water quality. The intent is to develop a comprehensive and balanced plan which addresses all of the resource problems. This effort, the CALFED Bay-Delta Program (Program), is being carried out under the policy direction of CALFED. The CALFED Bay-Delta Program is exploring and developing a long-term solution for a cooperative planning process that will determine the most appropriate strategy and actions necessary to improve water quality, restore health to the Bay-Delta ecosystem, provide for a variety of beneficial uses, and minimize Bay-Delta system vulnerability. A group of citizen advisors representing California's agricultural, environmental, urban, business, fishing, and other interests who have a stake in finding long term solutions for the problems affecting the Bay-Delta system has been chartered under the Federal Advisory Committee Act (FACA) as the Bay-Delta Advisory Council (BDAC) to advise CALFED on the program mission, problems to be addressed, and objectives for the CALFED Bay-Delta Program. BDAC provides a forum to help ensure public participation, and will review reports and other materials prepared by CALFED staff.
